## Introduction and contents

The Fix list describes the bugs corrected in Hot fix 011 for Microsoft Dynamics C5 2008 Service Pack 1.

The hot fix includes changes to payroll and demands for eFerie-card – eFerie request.

For information about bug corrections since release of Microsoft Dynamics 2008 we refer to earlier released fix lists.

Remember to read the document : Ferie\_2011.pdf

**Note** - Be aware of that beginning with this hot fix the version numbering format has changed to

<Mainnumber 1pos>.<subnumber 1pos>.<Service pack number 2pos>.<Hotfix number 3pos>, e.g. 4.2.01.011

## Payroll

Bug ID	Title
59838	Forkert beregning af ATP i lønberegning med fratrådte medarbejdere Hvis der er en medarbejder, der er fratrådt midt i måned (eks. 19/3-2010) i rækken af medarbejdere, der køres løn på, så beregnes ATP korrekt på medarbejdere FØR den fratrådte medarbejder og på fratrådt medarbejder, men C5 nulstiller ikke, så efterfølgende medarbejdere får beregnet samme ATP-bidrag som den fratrådte medarbejder.
59867	Kvitteringsliste efter indberetning til eFeriekort Der kommer en udskrift med navn og antal feriedage på alle tre fil dannelser
59884	Feltet Feriekort type medtages ikke fra standard medarbejderen. Dette er nu rettet.
60070	Barsel.dk ingen øvre aldersgrænse – C5Pay.kom filerne er rettet til. Der er ingen max aldersgrænse på ATP mere, men Barsel.dk kan kun udregnes med nuværende lønopsætning, hvis der findes en max aldersgrænse.
60103	Fejl på tællværk 5154 Ved udbetaling af feriepenge på lønart 5154 regnes der altid en ansættelsesperiode tilbage men for medarbejdere, der har haft flere ansættelsesperioder beregnes tællværk 5154 ikke korrekt og der udbetales et forkert beløb. Dette er nu rettet.
2244	ACF fase 2 – eFerie anmodning, XML filer der downloades fra ACF kan importeres i en C5 lønkladde. Systemparametre til feltet SHsaldo_Brutto_Beloeb i filen Optjening_Nedskrivning skal tage værdien fra systemparametre Ferie SH Br.Gr, hvis der ikke findes værdi i dette felt, skal værdien hentet fra Ferie SH opspar. Dette er nu rettet

---

eFeriekort til fratrædelse af funktionærer får ikke data med hvis der er mindre end tre års tal på medarbejderen. Der kommer en fejl under afvikling af kørsel "Der er foretaget en division med 0" Dette er nu rettet.

---

## **General**

---

Bug ID	Title
<b>2321</b>	<p>The previous application version number format allocated only one digit for Service pack numbers and only one digit for Hot Fix numbers, thus only allowing for 9 Service Packs and 9 Hot Fixes. When a version with a Hot Fix number got higher than 9, this version could no longer be efficiently compared to other versions.</p> <p>The new application version format is as follows: &lt;Major version number 1 digit&gt;.&lt;Minor version number 1 digit&gt;.&lt;Service Pack number 2 digits&gt;.&lt;Hot Fix number 3 digits&gt; e.g. 4.2.01.011</p> <p>This change is implemented in all currently supported versions starting with 4.2.01.011 and 4.3.01.006</p>

---

### **Corrected General elements:**

**MAC SERVICE**  
**MAC SERVICE\_SYP**  
**MAC SERVICE\_DIS**  
**XAL AutoexecXAL,**  
**XAL SERVICE,**  
**SXL Pre-Process,**  
**FNC DbOpen,**  
**FNC ApplVersionComparison**

### **Corrected Payroll elements:**

***XAL.PayCalculate***  
***FNC.PayEmplTable.PayDA\_XMLERoliday***  
***REP.PayDA\_XMLERoliday***  
***FRM.PayEmployee***  
***XAL.PayHolidayImportRequest***  
***Frm.PayWorkJour***  
***MNU.PayWJourFunctions***  
***FNC.PayEmplTable::PayDA\_XMLERoliday***

Microsoft Dynamics is a line of integrated, adaptable business management solutions that enables you and your people to make business decisions with greater confidence. Microsoft Dynamics works like and with familiar Microsoft software, automating and streamlining financial, customer relationship and supply chain processes in a way that helps you drive business success.
